Director of Forest Experimental Station,  
Warsaw University of Life Sciences

**JANUSZ FALKOWSKI**

Note: our seed list takes part in the Pan-European seed-list search system. See more: <http://www.botanicgardens.eu/seedlist.htm>

Seed collection was coordinated by **Małgorzata Konecka** and supported by seed collectors from Arboretum staff.

All seeds in current catalogue were collected from plants growing in the Arboretum. However a few species listed here **indicated with I** occur naturally in Arboretum and therefore they can be treated by ordering institutions as growing in the wild.

Types of provenance:

**W** – from seeds collected in the wild

**G** – from cultivation

**U** – unknown

**I** – from natural populations

Ordering number

Plant name

**358 Viburnum lentago L.**

Plant accession number

Plant germination year

**1981/10671 W**

Provenance details

**USA: Dutchess Co., New York,  
Stanford Road**

### Erratum:

Below there are plant accessions that were distributed by our seed catalogues during last few years and have recently been verified as erroneously labeled.
